Read past issues of [Path to Publish](#)

Path to Publish - the monthly *AJP* newsletter

[The American Journal of Pathology](#) is appreciative of all the authors that have been submitting their work via our new manuscript processing platform, [EVISE](#). Submissions to *AJP* showed a significant increase last month compared to January of last year. While we are still ironing out some of the wrinkles in the process, we are glad that authors have continued to choose *AJP*. If you have questions or suggestions regarding the new system, please feel free to contact the editorial office (ajp@asip.org).

Did you know...

[The American Journal of Pathology](#) is offering a new member benefit for Regular members of The American Society for Investigative Pathology. When you publish in *AJP*, your coauthors can benefit! ASIP Regular members who serve as the corresponding author on a manuscript that gets accepted for publication earn their coauthors the opportunity to become Next-Generation Scientist, Trainee, or Associate members at a discounted rate.* Publish articles and advance career development for your staff and colleagues at the same time. Please see the [ASIP member benefits](#) page for more information. *Restrictions and qualifications still apply.
