Path to Publish - the monthly *AJP* newsletter

The October issue of [The American Journal of Pathology](#) is excited to feature a series of review articles focusing on the Next Generation Omics of Breast Cancer. This series of seven new reviews was put together by Associate Editor Dr. Bill Coleman. The Journal is pleased that the release of these reviews can coincide with national Breast Cancer Awareness month.

Editor's Choice

Did you know...

The American Journal of Pathology has appointed its next Editor-in-Chief?

Dr. Martha Furie has been named the upcoming Editor-in-Chief and will take the reins starting January 2018.

Dr. Furie has a long history of working with the Journal, having served as an editorial board member, Associate Editor, and currently, as Senior Associate Editor. She has also been active in [ASIP](#) for many years, having been the Program Committee chair for the annual meeting at EB, Education Committee chair, ASIP council member, as well as serving a term as ASIP president.

The Journal is excited to welcome Dr. Furie, and looks forward to where things will lead under her leadership. She will be the 14th Editor-in-Chief for the Journal, and the first woman to hold the position.

Manuscript Prep

Check your blots! Blot images that are made up of multiple gel runs spliced into a single image, need to be clearly defined as such in the legend. Also- double check to make sure you haven't duplicated images when putting together the final figure. Be on the lookout both as an author AND as a reviewer!
