698. BREAST, GYNECOLOGICAL, AND PROSTATE CANCER

Poster

Sun. 9:00 AM - 4:00 PM  San Diego Convention Center, Exhibit Halls A-D

Presentation Time: 11:45 AM - 1:45 PM

A215 698.2 TIMP-2: A Novel Biologic Therapy for Triple Negative Breast Cancer N.P. Castro, A. Chowdhury, S.M. Jensen, F. Cuttitta, W.G. Stetler-Stevenson, D. Solomon. NCI at Frederick and NCI at Shady Grove, MD

A221 698.8 Breast Cancer Emergence from Dormancy Can Be Activated by Hepatic Stellate Cells A.S. Khazali, A. Clark, S. Wheeler, A. Wells. Univ. of Pittsburgh and VA Pittsburgh Healthcare Syst.

A222 698.9 Expression and Function of Androgen Receptor in Human Breast Cancer-Associated Fibroblasts: May Androgens Shape Breast Tumor Microenvironment? M. Lanzino, A. Campana, C. Giordano, I. Barone, D. Bonofiglio, S. Catalano, S. Andò. Univ. of Calabria, Italy

A224 698.11 The Role of CtBP in Tumor Progression: Insights from the Pinducer Inducible Gene Expression System D.I. Yi, D. Li, S. Park, L. Crawford, G. Liang, M. Kabbout, R. Hernandez-Mora, T. Yan, J. Byun, K. Gardner. NCI, NIH

A226 698.13 Exploring the Proteomic and Genomic Relationships between CtBP Expression and Metabolic Imbalance in Breast Cancer L. Crawford, R. Hernandez-Mora, S. Park, J.S. Byun, K. Gardner. NIMHD, NIH and NCI, NIH

A228 698.15 Characterizing Bone Tropism of Human ER+ Breast Cancer Cell Lines in a Murine Bone Metastasis Model J.N. Cheng, J.B. Frye, S.A. Whitman, J.L. Funk. Univ. of Arizona

A229 698.16 The Influence of the Social Support about 20s Women’s Cervical Cancer Screening Who Are Doing Physical Activities on the Screening Attitude K. Yunhwa. Asan City, South Korea

A232 698.19 Androgen Receptor Represses the Expression of Minichromosome Maintenance Proteins: A Mechanism for Androgen Therapy in Castration Resistant Prostate Cancer K. Valencia, D. Han, S. Gao, W. Han, C. Cai. Univ. of Massachusetts Boston

A233 698.20 Foxi3: A Sly Regulator of Bone Development, Promotes Prostate Cancer A. Mukherjee. Troy Univ., AL
