Print Orders

Print orders are high quality saddle-stitched "hardcopies" similar to article reprints. These articles are printed on demand when you order. Orders placed by 5 p.m. EST Monday through Friday are processed within 24 hours.

Secure PDF/Electronic Download

When you order secure PDF copies of an article, you will receive an email with a unique URL link to the article. This email can be forwarded to as many recipients as you choose, or the link contained in the email can be copied and pasted into a website. Note that each person that clicks on this link from their unique computer will "debit" the number of secure PDF copies you have purchased. You will not be able to save the PDF, but may print out one copy of this PDF once it is accessed. If you intend to make additional photocopies of this PDF, please report your reproductions to the Copyright Clearance Center (www.copyright.com), in accordance with United States copyright law.

Please Note: All materials offered by *The American Journal of Pathology* and *The Journal of Molecular Diagnostics* are protected from unauthorized duplication and distribution under United States copyright law.

Custom Orders/Help with Ordering/Feedback

Orders can be customized for print or electronic (secure PDF) copies. Examples of custom orders include: including the cover of the original issue in which the article appeared; creating amalgams of articles (e.g. article sets or coursepacks) to be printed and distributed as one piece; attaching a personally designed coversheet.

If you would like to customize an order, make inquiries about bulk pricing, or have any other questions or feedback regarding your order, please contact

ArticleWorks@asip.org.
