THE AUTHORS affirm that this manuscript is their original work that has not been reported previously (other than in abstract form) and is not under consideration for publication elsewhere. The material has been approved for submission by all authors and all contributing authors have been credited. Unpublished work cited in the manuscript was approved for citation by the authors of the referenced work.

FINANCIAL DISCLOSURE: The authors certify that any affiliations (e.g., employment, consultancies, stock ownership, honoraria, expert testimony) with any organization or entity with a direct financial interest in the subject matter or materials discussed in this paper are disclosed in a separate statement submitted with this copyright assignment form.

COPYRIGHT ASSIGNMENT: This form must be signed by the corresponding authors on behalf of all contributing authors. No work can be published by the American Society for Investigative Pathology and the Association for Molecular Pathology unless a copyright assignment form has been received. The form should be returned to this office (with financial disclosure statement, if applicable). This form has no legal effect if the paper is not accepted for publication.

THE AUTHORS affirm that nothing contained in this article will constitute an infringement of any copyright and that its contents are neither libelous nor constitute an invasion of privacy. The authors agree that the American Society for Investigative Pathology and the Association for Molecular Pathology may publish the article, in print and electronically, in an edition of *The Journal of Molecular Diagnostics*, and hereby grant and transfer all rights of sale, title, and interest, including the right to claim copyright, to the American Society for Investigative Pathology and the Association for Molecular Pathology.

THE AUTHORS acknowledge that publication of the submitted article constitutes the entire consideration due them for all of their rights to copyright; and further agree to hold the American Society for Investigative Pathology and the Association for Molecular Pathology harmless from any breach of the aforesaid representations.

For United States government employees, the above assignment applies only to the extent allowable by law.
