About the American Society for Investigative Pathology

The mission of the Society is to promote the discovery, advancement, and dissemination of basic and translational knowledge in experimental pathology and related disciplines. This shall be achieved by fostering investigation into the pathogenesis, classification, diagnosis, and manifestations of disease through meetings, publications, and educational activities.

The American Society for Investigative Pathology (ASIP) is a society of biomedical scientists who investigate mechanisms of disease. Investigative pathology is an integrative discipline that links the presentation of disease in the whole organism to its fundamental cellular and molecular mechanisms. Investigative pathology uses a variety of structural, functional, and genetic techniques and ultimately applies research findings to the diagnosis and treatment of diseases. ASIP advocates for the practice of investigative pathology and fosters the professional career development and education of its members.

ASIP is a member of the Federation of American Societies for Experimental Biology (FASEB), a coalition of 26 independent societies that plays an active role in lobbying for the interests of 100,000 biomedical scientists.

The gifts of education, success, and prosperity in one’s life brings with it not burdens of responsibility, but delightful opportunities to inspire, teach, and mentor future generations.

Supporting Institutions
- Federation of American Societies for Experimental Biology (FASEB)
- FASEB Executive Officers Advisory Committee
- International Society for Analytical and Molecular Morphology (ISAMM)
- Lanquest
- University of Kansas School of Medicine Department of Pathology & Laboratory Medicine
- University of Pennsylvania School of Medicine Department of Pathology & Laboratory Medicine
- University of Toronto Department of Laboratory Medicine & Pathobiology

Abraham David Sobel - ASIP Education Fund
American Society for Investigative Pathology
9650 Rockville Pike, Suite E133
Bethesda, MD 20814-3993 (USA)

Email: asip@asip.org, www.asip.org
Abraham David Sobel was born on September 29, 1909 and died on his 98th birthday. He had a lifelong interest in supporting education and training for young scientists. Abraham Sobel was keenly interested in the field of biomedical science and always delighted in learning of the latest discoveries and developments in the treatment of diseases.

2012 marks the fifth year of the A.D. Sobel - ASIP Education Fund. To date, nearly 80 individuals and institutions/organizations have contributed over $45,000 to the A.D. Sobel – ASIP Education Fund. Funds have supported trainee travel to attend the ASIP Annual Meeting at Experimental Biology, the Italian Society of Pathology (SIP) Congress (SIP is an affiliate of ASIP), and the ASIP Summer Academy. The Fund also supports the newly established ASIP Excellence in Science Award, which recognizes outstanding achievements at the earliest stages of a career in biomedical research.

The American Society for Investigative Pathology is the leading international scientific society representing investigative research in the pathogenesis of disease. ASIP constituents from around the globe continue to conduct highly original research that provides groundbreaking pathways for the understanding, diagnosis, and treatment of human diseases.

Through the years, ASIP members have maintained an admirable history of generous corporate commitment to the education and training of the Society’s students and young investigators as well as a personal commitment to inspire, teach, and mentor junior colleagues. The next generation has been placed in good hands indeed, and we look forward to amazing discoveries in future years that will continue to pave the way for even greater understanding in the mechanisms and treatment of disease.

Please take this opportunity to provide for our younger colleagues and make your personal contribution today to the A.D. Sobel - ASIP Education Fund. As a 501(c)(3) not-for-profit organization, ASIP can accept tax-deductible contributions in the furtherance of its mission. Your tax-deductible donation to the A.D. Sobel - ASIP Education Fund will be used to fund the following ASIP educational initiatives:

- A.D. Sobel - ASIP Education Fund Scholar Awards for ASIP members to attend the ASIP Summer Academy on Molecular Mechanisms of Human Disease, the ASIP Annual Meeting at Experimental Biology, and the National Congress of the Società Italiana di Patologia
- ASIP Excellence in Science Award, recognizing outstanding achievements at the earliest stages of a career in biomedical research

I would like to join with my colleagues in support of the A.D. Sobel - ASIP Education Fund. Enclosed is my tax-deductible donation in the amount of:

- $5,000
- $2,500
- $1,000
- $500
- $250
- $100
- $50
- $________ Other

Submit your donation online at www.asip.org/donations/sobel.htm, OR
Enclosed is my donation:
- Enclosed is a check payable to ASIP
- VISA   AmEx   MasterCard
